

My family has always campaigned with me. My son, Claude, is a High School sophomore, is active in the Drama Club and is an officer in the Key Club. My daughter, Michele, graduated from St. Anselm College last year and is a Registered Nurse at New England Medical Center. They helped me run for the House of Representatives and they are helping me now. We'd appreciate your support.

A message from Georgette Berube, Democrat for Governor

One of the principles of the Democratic party is the involvement of citizens in the decisions of government which affect their lives. Government should represent all the people. I will have an administration that is open, respectful and fair. State government should serve, not rule.

I pledge forthright and decisive leadership, old-fashioned common sense and sound business decisions, not careless use of power.

I pledge the wise use of your tax dollars while maintaining an unyielding sensitivity to the social issues. We must provide adequately for those among us who are unable to provide for themselves.

I offer the record of my legislative performance during my six terms in the Maine House of Representatives, not empty promises.

I offer a commitment to Maine business men and women to improve the economic climate of the State.

I offer a strong labor record to the working men and women of Maine and I am concerned about job opportunities.

I offer a record of achievement in making State government more efficient, more cost effective and more responsive to the needs of the citizens of Maine.

I offer a commitment to attack our problems such as highway funding, social services and hazardous waste disposal in a comprehensive manner. I reject short-term solutions to long-term problems.

I am asking Maine Democrats from all over the State to help me in this ambitious endeavor. I am speaking to as many groups and individuals as I possibly can to learn first hand what they perceive needs to be done.

We are entitled to good common sense leadership and this is my pledge to you.

Georgette
